Hi Joshua,

Here's an opportunity for you to observe pressure testing at the Florence Copper facility. The person to coordinate with at the site is Ian Reams. See contact information below.

Please find attached the mechanical testing procedure and diagram of the testing procedure. Current schedule (subject to change) for the four wells is as follows:

- I-01: Monday Dec 9th
- I-02: Thursday Dec 12th
- I-03: Monday Dec 16th
- I-04: Thursday Dec 19th

Let me know if you are available for some of the testing. Give me a call to discuss.

Thanks, Nancy

Hi Nancy,

As discussed Ian Ream, Sr. Hydrogeologist (520) 840-9604 is the site contact for confirming the MIT testing of the Injection wells currently under way.

Regards,
Richard
